PRODUCT DATASHEET

Lubricant Spill Containment

Spill pallets, trays and kits

DETAIL – SPILL PALLET WITH REMOVABLE GRATING

OVERVIEW

The Tech Inc. Lubricant Spill Containment keeps oil off the floor and out of drains wherever lubricants are stored or dispensed. Spill pallets and trays are sized to hold the largest container, and spill kits give teams what they need to clean up quickly.

MODELS AND CONFIGURATIONS

- **One- and two-drum pallets** – for small stores.
- **Four-drum pallets** – for lube rooms and warehouses.
- **Drip trays** – under dispensing points and on benches.
- **Spill kits** – oil-only absorbents in bins and bags.

TYPICAL DESIGN DATA

Sump capacity	Sized to the largest container (205 L drum or more)
Material	Polyethylene, steel or stainless
Gratings	Removable for cleaning

APPLICATIONS

Lube rooms, workshops, warehouses, plants, mines and vessels.

KEY ADVANTAGES

- **Compliant storage** – containment sized to the largest container
- **Cleaner, safer floors** – drips and spills contained
- **Quick clean-up** – spill kits at each storage point

Designed and built by Tech Inc. · **Part of the Davey Group since 1990**
