FLAT SHEET ROLLER CASING MACHINE with DIP COATING & HEATING FACILITY

OVERVIEW

The Tech Inc. FLAT SHEET ROLLER CASING MACHINE WITH DIP COATING & HEATING FACILITY is a specialised equipment for membrane manufacturing engineering designed for membrane research, water treatment, and industrial applications. The machine is suitable for coating flat sheet membranes and other materials. It features dip coating and heating capabilities to ensure even coating application and proper drying.

MODELS AND CONFIGURATIONS

- Roller-based application system for consistent coating thickness
- Dip coating facility for full immersion coverage
- Integrated heating facility for curing and drying
- Precise temperature control
- Designed for both laboratory and pilot-scale production
