PRODUCT DATASHEET

RO Test Skid with Spiral Wound Membrane Housing

DETAIL – CLOSE-UP

OVERVIEW

Specialised reverse osmosis testing equipment featuring commercial spiral wound membrane housings for realistic performance evaluation.

APPLICATIONS

Water treatment system design and optimisation; industrial desalination research and development; membrane fouling studies and analysis; performance benchmarking of membrane products; pilot-plant operations and validation.

KEY ADVANTAGES

- Authentic spiral wound membrane housings for industry-standard testing
- Robust pressure vessel construction rated for high-performance operation
- Integrated feed, permeate, and concentrate measurement systems
- Precise pressure control and monitoring capabilities
- Modular design for reconfigurable testing configurations
