PRODUCT DATASHEET

Lab Scale Reverse Osmosis Test Skid

DETAIL – CLOSE-UP

OVERVIEW

A precision-engineered reverse osmosis testing platform for laboratory membrane research and development.

APPLICATIONS

RO membrane performance testing and evaluation; water treatment process research and optimisation; membrane characterisation and fouling studies; desalination technology research and development.

KEY ADVANTAGES

- Precision pressure regulation and control systems
- High-quality RO test cell with reliable sealing and construction
- Integrated flow and pressure measurement capabilities
- Compact laboratory-scale footprint for space efficiency
- Durable materials resistant to corrosion and degradation

Designed and built by Tech Inc. · **Part of the Davey Group since 1990**
