PRODUCT DATASHEET

Lubricant Identification System

Labels and tags for every lube point

DETAIL – DRUM RING AND LABEL

OVERVIEW

The Tech Inc. Lubricant Identification System links every drum, container, grease gun and machine to the right lubricant with one colour and symbol code. We prepare the code from your lubricant list, then supply the labels, tags and holders to put it on every point in the plant.

MODELS AND CONFIGURATIONS

- **Machine tags** – tag at each fill point naming the lubricant.
- **Drum and container labels** – same colour and symbol on storage.
- **Lube room signage** – labels for tanks, filters and dispensing points.
- **Custom code** – built from your lubricant list.

TYPICAL DESIGN DATA

Materials	Polyester, laminated card, water-resistant paper
Colours	Up to 11, plus symbols for colour-blind users
Holders	Pockets, frames, drum rings, washers, tabs and magnets

APPLICATIONS

Plants starting a lubrication programme, audits, ISO 55000 asset management and new lube rooms.

KEY ADVANTAGES

- **No wrong oil** – one code from drum to machine
- **Easier audits** – every point shows its lubricant and interval
- **Safer handover** – new technicians follow the labels
- **Fits the whole system** – matches our containers, guns and bulk tanks

Designed and built by Tech Inc. · **Part of the Davey Group since 1990**
